will seek the comination for re-election this fall and will make his race upon a unique platform.

When Judge Curry went on the bench many juvenile effenders were brought before him, and he established a whipping post in the back part of the police station. He did not think it a humane thing to send a boy of tender years to jail to essociate with hardened criminals, especially if he were up hefore the court for the first time. Whenever a boy who had committed his first offense was brought before him Judge Curry would send for the lad's parents or guardien, and gave them the option of whipping the boy in the presence of the police officials or having him sent to jaff.

In most instances the boy got the licking, and in time cases out of ten he would never be seen in police court again. The turnkey at the police station provided a whip out of an old bicycle tire that was split in several strips at one end. This was taken by the parent or guardian and

"Chin Pak Sun, a leading Chinese merchant, outlined the situation to-day, Rigid enforcement of the provisions of the exclusion act stirred the Chinese to dabbling in economic studies. Three Chicago Chinese of wealth were barred from bringing their wives into the United States,

"The first assessments made to meet the expenses of bringing conditions to the attention of the Pekin Government were levied in Chicago. From this center the movement spread in all directions. Before the expiration of the Geary exclusion law last December the Chinese association made known its purpose in Chicago. Upon the invitation of a committee from a number of federated women's clubs, Chin Pak Sun, as the mouthplece of the Chinese association, delivered an address in which he declared that if fairness was not shown in the readjustment of immigration laws, a boycott would follow on American goods, such as would be possible nowhere else in the world.

"The force of the threat was not realized, nor was the part Chicago Chinese played in its execution, until progress of the boycott and its echoes in American governmental circles brought it out.

Institution. Ferdinand Walz died at the City Hospital yesterday. An autopsy will determine the cause of his death, as there seems to be some doubt as to the real cause. Some of the physicians telieve that a blow which Walz received on his head Thursday is responsible for his demise, while others assert that delirium tremens brought it about.

Walz was 55 years old, a carpenter and lived at No. 4HI Clayton avenue. He was struck on the head, the police say, by Edward Green while Walz was in a fight with Mary Duff, who lives in the neighborhood of the Clayton avenue address. According to the police, Walz and the Duff woman were quarreling. Mrs. Duff drew a revolver and was threatening Walz, it is said. Green passed in a lumber wagon, and thinking that Walz was trying to kill the woman, he hit him on the head with a board.

Walz was taken to the City Hospital with a fractured skull. His death occurred yesterday at 3:15 a.m. Green was arrested.

He was charged with assault to kill, and was released on bond. Another warrant will be issued against him.
